THE VAULT

WHAT IS THE VAULT?

The Vault is an online database that provides you with company profiles, industry overviews, downloadable career guides and more. “There's a reason Fortune recently called the Vault ‘The best place on the Web to prepare for a job search.’” It will make your efforts at researching employers, industries, and career subjects easier and more efficient. Make sure to check out:

- **Downloadable Vault Guides**
  There are over 90 career-related guides accessible through the Vault. These guides provide information on industries and specific companies, as well as general career advice.

- **Industry Overviews**
  There are profiles provided for over 30 top industries. These profiles include general information about working in the industry, a brief history of the industry, as well as career path and salary information.

- **Company Profiles**
  Company profiles are available on the Vault. These profiles provide contact information, a brief company overview, a company “snapshot,” including tips on getting hired, the products or services that the company provides, and the various locations of the company.

- **Internship Database**
  You can search for internship opportunities by location and/or industry and get detailed information on each of the internship programs.

- **Career Profiles**
  There are 53 career profiles available to you. The information provided in each profile includes a general overview of each career field, a description of a typical career path and salary for that field, and the “uppers” and “downers” of the work.

- **Career/Occupational Surveys**
  There are over 2,000 career and occupational surveys available. The information provided in these surveys comes directly from people working in the career field you select. Information provided includes job responsibilities, hiring and educational requirements, and “uppers” and “downers” of the job.

HOW CAN I ACCESS THE VAULT?
